Šie kontroleriai kolkas tik perduoda stringus,kadangi darom paprastai be input formų.

Galerijos kontroleris

Paimu visa aplankala,visus directories perduodu per @images į html.erb. Html.erb faile cikle kuriu div klases ir einu per paveiksliukų id

Before_action meta exceptiona jeigu nuotraukų aplankale nėra.

```ruby
class GalleryController < ApplicationController

    def gallery

        @images = Dir.glob('D:/FirstApp/app/assets/images/*.jpg')
        before_action raise Exception, "Wrong image" if @images.nil? || @images.empty?

    end
end
```

```erb
1  <h1>Gallery</h1>
2  <div class="row">
3  <% @images.each do |s| %>
4  <%puts s%>
5
6    <div class="column">
7    <a target="_blank">
8      <%= image_tag(s)%>
9    </a>
10 </div>
11   <% end %>
12 </div>
```
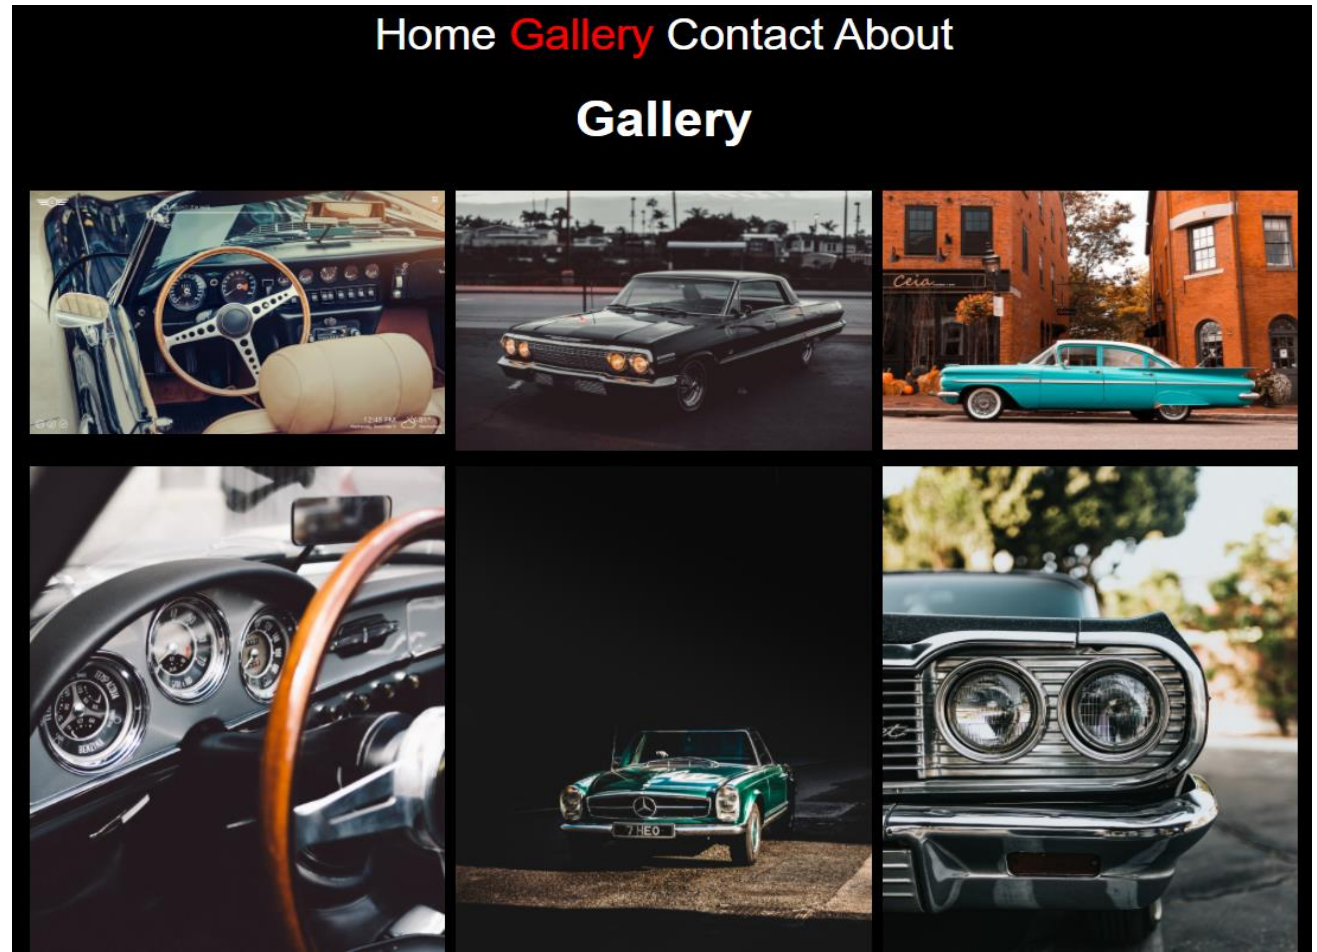

Galerija

- Gaunam galeriją kuri dinamiškai kelia nuotraukas, tik ikelus į tam tikrą aplankalą

Classic Cars

Many people forget the difference between a classic car and an old car. In my opinion, when it comes to a classic vehicle, the way it makes you feel, outweighs all its faults. It has to be more than the sum of all its parts. A classic car has character, personality, it has human qualities.
